

Project Team Communication Plan

Date:	15 March 2026	Team ID:	PNT2022TMID124356
Project Name:	ANTI DEBT	Lead:	Lakshmi Sravya Kagitha (Team Lead)

Communication Plan Matrix

Communication Type	Frequency	Channel / Tool	Participants	Purpose
Team Standup	Daily	WhatsApp / Google Meet	All Members	Review daily task schedules and code progress.
Progress Update	Weekly	Discord / VS Code Share	All Members & Lead	Assemble frontend views with backend endpoints.
Issue / Bug Discussion	As Needed	Discord / GitHub Issues	Developers (Jeeva, Kowshik, Yashwanth)	Resolve database locks or API component errors.
Stakeholder Review	Bi-Weekly	SmartBridge Portal	Team Lead (Sravya) & Mentors	Submit planning documents and fetch validation feedback.
Final Demo Rehearsal	Once	Google Meet	All Members	Confirm step-by-step walkthrough scenario for project.

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Virtual environment path conflicts on Windows machines during development.	We established standard path prefixes inside our uvicorn startup instructions, ensuring Python environment scripts execute bypass flags.
2	Windows Bcrypt compilation version errors with third-party libraries.	We wrote custom PBKDF2 SHA-256 secure password hashing in auth.py, eliminating dependency requirements on passlib-bcrypt.
3	Nginx throwing 404 on page refreshes during static builds containerization.	We configured a custom nginx.conf routing template inside the frontend Dockerfile to fallback requests to index.html.
